

## BASIX workshops and masterclasses for choirs and vocal groups

Basix can help your vocal group or choir.

On your request we can work with:

Singing technique • Timbre • Intonation • Directing • Timing • Vocal percussion • Microphone technique • Staging • Fokus • Presence • Interpretation

It is also possible to have basix run one of your regular choir sessions to experience new ways of approaching the art of vocal music.

Often the workshops are combined with an evening concert with Basix and the participating groups.

“Every single one of the singers in Basix impressed the group with unique teaching abilities and strong vocal work. Charming as they are they created an atmosphere where the workshop participants dared to give more of themselves and expand their vocal abilities. The comments from the participants were all positive. We want to do this again and warmly recommend other groups and choirs to experience a workshop with Basix!”

**Helén Flø, Workshop holder**
